

# Isolator Bracket

## for PV-ezRack® SolarRoof™

### EZ-IB-ST240/100

Clenergy is an innovative technology company that specializes in renewable energy products. We manufacture both standardized and customized solutions, complying with ISO 9001 standards in all manufacturing processes. Strict quality control over our products ensures a long life and outstanding performance.

Specifications	
Material:	SUS304
Standards:	AS/NZS 1170.2 AS/NZS 5033
Applicable for:	Isolator
Warranty:	10 years

#### Application

Where a PV system is required to be installed externally this product allows the isolator to be conveniently positioned at the edge of the PV-array. *(If earthing is required use an earthing tubular lug on the M8 bolt)*

#### Convenient installation

The isolator bracket suitable for a single DC-isolator

The symmetrical design allows the bracket to be fixed at both ends of the rail. This accessory is simply attached to the rail with Z-module and bolt. The recommended torque for the supplied M12 bolt is 15-20Nm. The bracket can support an isolator bracket with a maximum weight of 2kg.

#### Packaging

20 Units in a carton, with Z-module and bolt assembly included.
