

BAILEY LADDERS

PRO STEP EXTENSION LADDER

FIBREGLASS

**SAFETY
WITH
POWER**

LEAN WITH CONFIDENCE

*No more overreaching!!!
The New Bailey Pro Step Extension
Ladder lets you convert the ladder from
a standard step ladder, to a leaning
ladder, to an extension ladder. Due to
the new multifunctional top you can now
access the closed ladder while leaning it
against a wall, enabling you to safely get
to those hard to reach places.*

MULTI-FUNCTIONAL TOP

BAILEY LADDERS

PRO STEP EXTENSION LADDER

FEATURES:

- Ladder can be used as a standard step ladder or it can be configured to a leaning ladder or an extension ladder.
- Innovative Top Cap design with integrated parts tray, tool holders, "Vee" channel and leaning pad.
- Smooth transition from a step to variable height extension position.
- Improved mobility over a dual position ladder by enabling the ladder to be extended rather than swung into a straight configuration.
- Uses the Bailey Punchlock technology for tread to stile durability strength.
- Available in 3 sizes and made to AS1892.

INDUSTRIAL 150KG

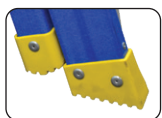

Innovative top cap design allows for leaning against walls.

Multi-functional Top Cap with tool holders, tool tray, leaning pad and "V" support.

Powder-coated Fly Section Slides give smoother operation.

Flexible PVC boots for improved durability.
