

# DATA SHEET

## HEAT SHRINK- THIN WALL

### Attributes:

- Shrink Ratio 2:1
- Shrinking temperature 80 to 120°C
- Operating temperature -45 to +135°C
- Water Absorption < 0.2%
- Material Breakdown > 15KV/mm
- Voltage rating 600V
- Elongation at breaking point >300%
- Sizing available from 2.4 to 76mm in Diameter
- Various colours available including Black, Red, White, Blue, Clear, Yellow/Green
