## make every mealtime easy

There is nothing that says good home cooking more than our stylish and modernly designed quality freestanding cookers.

Most of our models come in a white, natural and dark stainless steel finish and are available as full electric, full gas or a dual fuel combination in certain models. Selected models come with AirFry, removing the need to find space for a bench top model. Most offer a separate

grill while all offer a generous oven size that's comparable to our latest built-in models. All models can be freestanding or seamlessly integrated into any kitchen design whether you have a large space or something more compact.

Whatever your choice, it's ready to slot right into your kitchen and right into your life, making everyday cooking a pleasure, not a chore.
